

OPTIONS ANALYTICS SUITE

Power Smarter Options Trading Across Your Entire Platform

Turn Complex Options Data into Clear Insights

Options markets move quickly, and while raw options chains don't always provide enough clarity on their own, QuoteMedia's Options Analytics Suite helps turn complex data into clear, probability-based insights that empower platforms to increase engagement and trade activity.

Features

- Probability-Based Trade Discovery
- Real-Time and Historical Options Market Data
- Options Sentiment and Unusual Activity Monitoring
- Past and Future Performance Ranking
- Advanced Volatility and Price Charting
- Multi-leg Strategy Building Tools
- Single Click Trade Setup
- Flexible Platform Integration

Make Options Analysis Faster and Clearer

Built for brokerages, fintech providers, and digital trading platforms, the Options Analytics goes beyond static options chains by blending core market data with probability analysis and screening tools, helping users find lucrative opportunities faster while staying in control.

Turn Options Data into Engagement

This suite takes millions of data points and translates them into analytics workflows that support decision-making, while increasing session time, driving trade frequency, and improving platform stickiness.

From probability-based trade suggestions and Dow 30 scanning to institutional sentiment visualization and volatility mapping, with Options Analytics insight becomes something you can measure.

Who's it for?

Active Options Traders

Evaluate high-probability strategies and multi-leg setups using structured analytics.

Market Analysts

Monitor volatility trends, unusual activity, and shifts in sentiment.

Advisors and Portfolio Managers

Incorporated probability screening into client-focused strategies.

Digital Trading Platforms

Embed advanced analytics directly into trading workflows.

Brokerages & Financial Institutions

Enhance derivatives offerings with scalable analytics solutions.

Fintech Providers

Deliver differentiated options intelligence without building analytics in-house.

Core Product Components

**Options Analyzer Lite**

High-probability trade suggestions based on underlying analysis.

**Options Analyzer**
